

The Perfect Pandas & Eager Elephants

April Newsletter FS-2 and FS-1 Term 3

In April the FS1 children learned their letters: R r, S s, Tt and words that start with each sound. We recognized the characters' names and some of the first HFW(high frequency words). In Math we practised identifying numbers up to 15 and we counted together until 20. We found missing numbers on the chart and we traced numbers too. FS 2 children blended sounds and learned new beginning and ending sounds: sh, ch, th and ng. We practised reading new words in the stories and helped our friends write letters. In Math we continued adding and subtracting numbers, grouped numbers as odd and even and wrote the missing numbers up to 50.

Theme of the Month

This month we have learned all about means of transport (FS2): air, water and road as well as all about healthy food, fruits and vegetables (FS1). In FS2 we matched the pictures of transport with the words, cut and pasted means of transport to complete the pattern, wrote the words on the small boards to name a few activities that kept us busy every day. In FS1 we arranged the fruits in one basket and vegetables in another, we painted fruits, matched them according to their beginning sounds. We know what food is healthy and why, as we know our food pyramid!

Warm Hugs,
Miss Kathy
