

The Perfect Pandas

December Newsletter FS-2 Term 1

In December we learned more about beginning, middle and ending sounds in words. We even started writing our first words on the small boards. We can now recognize most of the letters' sounds and we can't wait to learn them all and be able to read any word!

We had our Winter Celebrations at the End of Term 1 which was a fun event with different activities, songs and delicious food that we shared. Thank you to all the parents that sent in so many different dishes for us all to share. Without your support this would not have been possible.

We are all looking forward to January and our new topic of: Kinds of Weather and Day and Night.

Theme of the Month

This month we talked about the toys now and in the past. We looked at different kinds of toys, named them and compared the ones used in the past. We learned that some toys are push and some are pull toys.

In Math we practiced taking away numbers and adding numbers. We subtracted different objects: blocks, cubes, markers and we can also add and subtract up to 10 using our fingers. Next month we will be adding and subtracting bigger numbers and writing numbers up to 30.

Warm Hugs,
Miss Kathy and Miss Juliet
