

The Perfect Pandas

March 2015 Newsletter

FS-2 Term 2

In March we have learned all the letters' sounds and we have started forming and reading sentences. We are very good at reading most of the words that we learned. Our next step would be to write simple sentences and use our phonics knowledge to do that! In Math we practised adding and subtracting using blocks, different objects and solving addition and subtraction tasks. We continued counting using ordinal numbers, read the numbers and colours' names, skip counted and named the even and odd numbers.

Theme of the Month

This month we've been working hard to prepare our roles for the Annual Little Pandas' Performance" The mixed up chameleon". Children were very excited to show what they have learned and practiced throughout the month of March to their families.

In March we discussed the importance of community helpers and how they help the society, what their duties are. Our children already know who they want to be when they grow up.
